# 2020-21 Assessment Programs by Grade Level & Subject Area

	Math	ELA	SLA	Science	English Language Proficiency	Early Childhood
Istation	K-2	K-2	K-2			
Cognia	3-8	3-8	3-8,11	5,8,11		
College Board	10-11	10-11				
Dynamic Learning Maps	3-8 10-11	3-8 10-11		5,8,11		
ACCESS for ELLs					K-12	
Early Childhood Observation Tool						PreK-K

*\*National Assessment of Educational Progress (NAEP): 2020-21 is a main NAEP year grade 4 & 8 math and reading sample*

# Balanced Assessment System Context

An assessment system is balanced when:

- the assessments in the system are *coherently* linked through a clear specification of learning targets,
- they *comprehensively* provide multiple sources of evidence to support educational decision-making, and
- they *continuously* document student progress over time.

(National Research Council, 2001).

# Formative Assessment Resources & Reentry

## Using Multiple Measures & Formative Practice to Identify Learning Needs

REENTRY GUIDANCE

### Relationships First

School leaders and educators will be faced with many, immediate priorities as students start the academic year. Among those will be understanding new safety protocols, adjusting to new schedules, routines, and norms, incorporating technology more robustly as a day-to-day tool for instruction, and establishing academic baseline using formative assessments and multiple measures of student performance.

However, it is our belief that none of the above priorities can be accomplished without first attending to the social and emotional wellbeing of students. Strong, established, positive relationships with adults and peers allow for deep connections, critical thinking, and accelerated learning to occur. In this way, our students' emotional and physical safety is paramount.

Administering a test should not be a day one, week one, or even week two activity; New Mexico Public Education Department (NMPED) believes when to deploy the formative assessment tools that will assist with identifying their students' needs. When appropriate, this guidance document will assist schools in better understanding how to identify learning needs and the resources available for formative practices.

– Dr. Gwen Perea Warniment,  
Deputy Cabinet Secretary  
Teaching, Learning & Assessment

### Identifying and Diagnosing Learning Needs

Many assessment products have been described as diagnostic and made to serve multiple purposes. However, NMPED understands that effective assessment practices require specific design and uses. As such, in order to support teachers in identifying and addressing student needs, New Mexico has engaged in a comprehensive, balanced assessment system. A balanced system of assessment provides students multiple opportunities to demonstrate learning and understanding. Comprising formative, interim, and summative assessments, each with a distinct purpose and use, this system of assessments informs teachers on student competency and learning gaps, provides feedback to students and families, and illuminates the need for broader support and policy action at the district and state levels.

As schools begin to prepare for student reentry in fall, NMPED is dedicated to supporting teaching & learning through formative and interim assessments available to all NM public schools, at no cost to the school or district. These tools, which aligned to state adopted content standards, are aligned with the state's summative assessment allowing for consistent, streamlined information on student progress. **Additionally, these tools are available in multiple delivery formats (paper & online) and with flexible administration (nurturing items, time) to be adaptable to all reentry options: remote, hybrid, or in-person.** Together, the implementation of high-quality formative and interim assessments and practices illuminate student learning gaps and highlight targeted areas of focus for the upcoming school year.
