Díí dah shijaa'ígií bee nineel'ánígíí éí óltá'í bi'lóltá' bíł hahoodzooígíí dóó bi'lóltá' bee baa hane'í biyi'.

## New Mexico Measures of Student Success and Achievement and Assessment of Science Readiness Spring 2022 Student Report

Student Name: LASTNAME103, FIRST103  
SSID: D00103  
Date of Birth: 09/02/2009  
Tested Grade: 05  
Student Grade: 05  
District: Demonstration District A  
School: Demonstration School 2

Dear Parents and Guardians,

Thank you for your continued support and partnership with the Public Education Department to ensure that all New Mexico students are healthy, secure in their identity, and holistically prepared for college, career, and life. I am especially grateful for your time and sacrifice on behalf of your student during the immense challenges of the last two years.

This Individual Score Report describes how your student performed on spring 2022 state assessments. These assessments are summative in nature. They were not designed to inform your student's teachers about short-term teaching strategies or potential interventions but to give them, and you, a snapshot of where your student finished the 2021-2022 school year relative to state-adopted content standards and instruction.

In particular, this year's assessments are important as a starting point, post-pandemic, for determining new baseline end-of-grade math and reading levels.

If you have specific questions about your student's performance on the assessment, I encourage you to reach out directly to your local school administration. The Family Report Interpretation Guide is available at <https://newmexico.onlinehelp.cognia.org/>. In addition, should you have specific questions about the assessment, please visit the PED assessment bureau's Parent Resource page at <https://webnew.ped.state.nm.us/bureaus/assessment/parent-and-student-resources/>.

The PED appreciates the opportunity to be a part of your student's educational success.

Kurt Steinhaus, Ed.D.

Secretary of Education, New Mexico Public Education Department

How did your student do on the New Mexico MSSA and ASR assessment? You can look at your student's scale scores, Achievement Level labels, and Achievement Level Descriptors to determine how well your student has done and whether additional support may be necessary. Your student's teacher can help you with interpreting this report and deciding on next steps for your student.

### LANGUAGE ARTS

526

Novice

Confidence band is 515 to 537

Your student's Language Arts score is in the Novice level, not yet on track for college and career readiness.

### MATHEMATICS

506

Novice

Confidence band is 500 to 537

Your student's Mathematics score is in the Novice level, not yet on track for college and career readiness.

### SCIENCE

543

Novice

Confidence band is 539 to 547

Your student's Science score is in the Novice level, not yet on track for college and career readiness.

Confidence bands: Your student's test score indicates performance on the day of the test. The confidence bands indicate the range of possible test scores your student would be expected to achieve on a different day.

Novice      Nearing Proficiency      Proficient      Advanced
